CAREER OBJECTIVE

Fresher software developer with a strong background in Python scripting and automation. Graduated in Electrical and Electronics Engineering with a CGPA of 7.0. Eager to contribute to innovative projects, learn in a team-oriented environment, and grow as a software engineer.

WORK EXPERIENCE

Service Engineer

SKIDATA | MAY 2025 – Present

- Worked as a Service Engineer and Software Technician at SKIDATA, handling access control and parking systems.
- Provided technical support, software configuration, and on-site troubleshooting.
- Assisted with system installation, maintenance, and coordination with software teams.

PROJECT

Cross Manager| May 2025 – June 2025

- Developed a Telegram bot to automate cross-promotion between channels using Python and Telethon.
- Implemented message monitoring, timed deletions, and success tracking for fair promotion cycles.

Desktop Cleaner | June 2024 – July 2025

- Developed a Python script to automatically organize desktop files into folders based on file types.
- Improved productivity by reducing clutter; integrated with Task Scheduler for periodic execution.
